CONNECTION AND OPERATION

Attention! The built-in battery must be charged completely prior to the application.

Microphone battery charging

- Connect microphone to a USB port of PC or USB charger using micro USB to USB cable (included). During battery charging the indicator ③ is red. Indicator ⑥ goes out when the battery is charged.

OPERATION MODES

Bluetooth mode

- Wireless data transfer via the Bluetooth protocol enables to connect microphone to compatible devices. Maximum radius of action of data transfer is 10 m. Such obstacles as walls or other electronic devices can interfere with the signal transfer.
- Switch the microphone to the Bluetooth mode using button MODE ⑤. Turn on the microphone. The ③ indicator will flash blue.
- It is necessary to select the search mode of devices with Bluetooth on a signal source (telephone, notebook, smartphone, etc.). «SVEN MK-950», message will be displayed on the screen which is to be connected to*.
- When connection is successful, there will be a short beep, and the microphone indication of the search mode ③ will shine continuously**.

* You might have to enter "0000" code to connect some models of devices via Bluetooth.

** If the item has been already registered in the device list of a source, then the second search mode activation is not obligatory. Choose the item name «SVEN MK-950» and the "connect" command on the source.

Fig. 2. Connection diagram

Player mode

Attention! The file system of a micro SD carrier is FAT32. Maximum volume is 32 GB. It is not recommended to use the micro SD Ultra Speed.

- The microphone will enter the Player mode automatically when a carrier (USB flash or SD card) is connected to corresponding ports. Use button ② to switch between Play / Pause modes. You can control tracks by using buttons ⑦ (previous track) and ⑥ (next track).
